

ANIL HANSJEE'S PROFESSIONAL RESUME

DeepTech / FinTech / Blockchain Investor (across M&A and Private Equity)

Highly accomplished investment executive with **26 years** dedicated to technology M&A, Venture Capital, and Growth Equity. Possesses a unique dual background in **technical engineering** (AI/Robotics, derivatives capital markets) and **strategic corporate innovation/M&A/investments** at major global firms such as **JP Morgan, Google** and **PayPal**. Currently one of three General Partners leading the dedicated blockchain AI+Stablecoin fund, **Fabric Ventures**, based in London, UK. Proven ability to originate, structure, and exit high-growth businesses while building market-leading ecosystems.

M&A and Investment Scale: Sourced, executed, and advised on M&A transactions totaling **over \$9.4 Billion** (**Geneva Tech, Waze, Honey, iZettle** in particular). Deployed and led investments exceeding **\$380 Million** across Seed to Series B deals (at funds IDG Ventures, Mojo.capital, Google, PayPal Ventures, and Fabric).

Key Achievements & Core Expertise

Strategic Investment & Deal Execution

- **M&A Leadership:** Executed over **\$9.4Bn in M&A** deals across JP Morgan, Google, Modern Times Group, and PayPal. Personally has led 30% of these.
- **Venture Deployment:** Led the deployment of **over \$380M** in venture capital across five funds/corporate ventures (IDG Ventures, Google, Mojo.capital, PayPal and Fabric)
- **Deeptech M&A domains:** Executed strategic tech and talent acquisitions of key deep technology components at **Google** vital for products such as **Google Hangouts/WebRTC**, Chrome Remote Desktop, and Vision Search.
- **Fintech Investment domains:** Deep focus on **Stablecoins & On-chain Finance** (Superfluid, Argent, Yellowcard, Nilos, Due, Kulipa, Fiat Republic investments) and **Fintech Infrastructure** (Modulr, Codat, Tink, PPRO, Raisin investments).

Notable Exits & Value Generation

- **Actively driving Venture Returns from Corporate Exits:** Actively involved in driving significant exits for portfolio companies including **Shazam to Apple, Lionhead to Microsoft, Ubiquisys to Cisco, Dotmobi to Affiliis**, and **Tink to Visa**.
- **Other Venture Returns:** Achieved other portfolio gains at Fabric and other funds in sectors across Blockchain (e.g., Sorare, Polkadot, TheGraph, Immutable, Consensus) and Fintech (Wise, Wagestream, both secondaries).

Governance, Leadership & Market Voice

- **Business building:** Has built out multiple corporate development and investment teams and processes from scratch (**Modern Times Group, Google Corporate Development EMEA and PayPal Ventures EMEA**), managing cross-functional (product, commercial, investment, M&A) as well as multi-region teams.
- **Board Governance:** Extensive experience as a Board Member/Board Observer across **28 companies** (including Zattikka PLC, Argent, Due, Tapestry, Tink, PPRO, Modulr, Raisin, Shazam), actively steering post-investment strategy and exit planning.
- **Regulatory Compliance:** Operated as a **regulated financial services individual personally with the FCA** and served on the boards of regulated fintech and payment entities (Modulr, PPRO, Fiat Republic), ensuring best practices in compliance.
- **Ecosystem Building:** Co-founded the **Google Campus in London** and established the specialist Entrepreneurs Group at the **British Computer Society (BCS)**.
- **Academic Engagement:** Member of **Kingston University's Industrial Advisory Board** and **Visiting Professor** for 2 years
- **Public Authority:** Recognized with an **Honorary Doctorate of Computing** and a **Fellowship of the BCS** for contributions to the technology ecosystem. Appointed Senior Advisor to the **Starkware Foundation** for payments, solidifying subject matter expertise on Stablecoins. Served on several investment/advisory boards for investment funds such as **Fabric, Investinor, Kompas VC, Claret Capital, MCI Management, Creandum, EQT and Seedcamp**

Technical and Academic Foundation

- **Deep Financial Tech:** Engineered derivatives pricing and risk management solutions as a Lead Software Engineer and Product Manager at **UBS, JPM Chase and advisor to DigitalVega**
- **Academic Base:** Investment expertise is built on a foundation of study in **AI/Robotics (Edinburgh University)** and an **MSc. Finance (London Business School)**.
